### **About Cempra, Inc.**

Cempra Inc. is a clinical-stage pharmaceutical company focused on developing antibacterials to meet critical medical needs. Two lead antibacterial products, both in the treatment of infectious diseases, address the urgent and increasing need for new treatments targeting drug-resistant bacterial infections in both the hospital and the community. Cempra is committed to developing commercially and medically differentiated products that provide a treatment alternative to address patient needs. The company is also utilizing its series of proprietary lead compounds from our novel macrolide library for uses such as the treatment of chronic inflammatory diseases, endocrine diseases and gastric motility disorders.
